## Walk-through boot cleaning machine type 23835-1000

Photo 2: Brushes

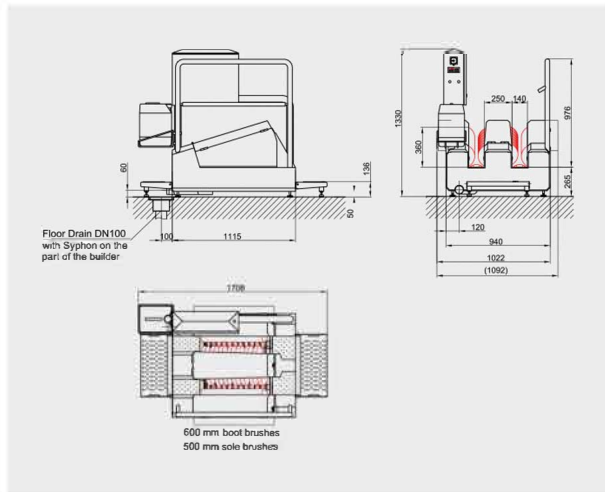

**HYGIENE**

≡ Ergonomically shaped stainless steel housing and special brush arrangement for the comfortable walking through the machine.

≡ Antislip surfaces, step guides, rails, as well as the step treads, integrated into the housing, provide a secure standing.

## Quick and ergonomic cleaning and disinfection of sole and leg

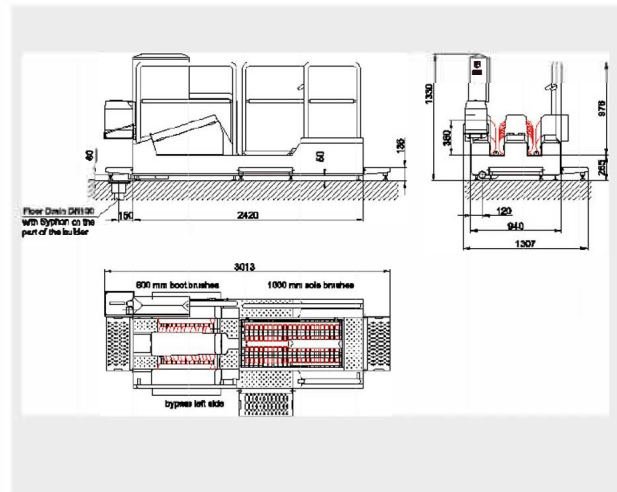

### Technical data: Type 23835

Power supply voltage:	400 V, 3 / N / PE
Nominal power:	1,5 kW
Power frequency:	50 - 60 Hz
Control voltage:	24 V DC
Protection class:	IP 65
Room temperature:	min. +4°C, max. +40°C
Water supply:	MW R 1/2" (T max = 43°)
Wastewater drain:	R 2 1/2"

≡ The cleaning appliance type corresponds to the strict EU and US hygiene prescriptions as well as to the valid regulations of the TÜV and the VDE-guidelines.

≡ The walk-through boot cleaning machine type 23835 is completely equipped with internal pipework and can directly be put into operation. Siphon, water intake, drain, sealing and small parts, however, do not belong to the delivery.

Technical changes subject to alterations.
